## Frequently Asked Questions About PACE

### How does it work?

Once you register online at [www.4PACE.com](http://www.4PACE.com), Edmonds Elementary receives 5% of each purchase you make at participating restaurants and retailers. These businesses are listed in the PACE directory which came home last week with your student. In addition, the businesses offer you special deals throughout the year.

### Is registration safe?

Your information is NEVER provided to a third party. PACE is VISA and MasterCard certified. PACE's website communications are secured by the same technology used to protect online banking activity.

### Can I register a debit card?

However, when using your debit card, do not use your PIN – instead ask the merchant to run it as a regular VISA/MasterCard. This way your purchase will be tracked and benefit both yourself and our school.

### Can I register more than one card? What about my airlines reward card?

You can register any number of cards with your PACE membership. PACE co-exists with all rewards cards.

### I signed up last year, do I need to sign up again?

No. Your membership will renew automatically. However, to ensure your student(s) will be eligible for the prize program, login with your username and password, click on "My Account", select Prize Enrollment and follow the directions there.

### How does the prize program work?

All students in your household earn a prize for your membership. This year it is a Hex Bug. This little robotic creature reacts to sound and obstacles. (Pretty cool, actually!) Make sure to enroll each student that attends our school during your PACE registration process. For two or more memberships, your student(s) also receives their choice of some larger (and even cooler) prizes, such as...mini plasma ball, Brain Noodle kit, The Meteor Rocket, Sling Chute, and balloon-powered vehicles.

### How much does it cost?

The membership fee is \$25.00 and our school receives \$10.00 of that registration fee.

With the Special "Member Only" savings from the local businesses, including 20% back on your first visit to participating restaurants, the final cost to you could be zero! You have the opportunity to earn your membership fee (and more) back by frequenting the participating retailers and supporting our local community.
